Since its inception Bahamas First has taken a lead position in the general insurance market in The Bahamas. The Group's main subsidiary, Bahamas First General Insurance Company, was the first local general insurance company to exceed US\$100 million in premium income and enjoys the distinction of being the first locally capitalized property and casualty company in its core market. In 2010, the Group expanded its regional footprint with the acquisition of a Cayman based property and casualty insurer, rebranded as Cayman First Insurance, resulting in a larger and more diversified business platform. Both BFG and CFI enjoy an A- (Excellent) Rating from A. M. Best, which reflects the Group's strong capitalization, leading market presence and effective management.
